DENIAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby ~~grant~~ the same, subject to the following limitations and conditions:

~~The grounds of the protests under Applications 39277 and 41554 pertaining to Piute Creek being fully appropriated have been fully considered by the State Engineer. Therefore, Applications 39277, 41389, 41554 and 49928 are herewith denied on the grounds that there is no unappropriated water at the proposed source, and that they would conflict with existing rights, and it would be detrimental to the public interest to grant additional rights on Piute Creek. No ruling is made on the grounds of the other protests.~~

~~Application 42755 is herewith denied on the grounds that it would not be in the public interest to grant a permit on sources of water where there would not be sufficient water flow to ensure the customary use by wildlife as required under NRS 533.367.~~

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....cubic feet per second.

Actual construction work shall begin on or before.....

Proof of commencement of work shall be filed before.....

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....
